

autocult

available at your dealer

autocult is bringing nearly forgotten vehicles in miniature back again to life.

Each of our models is elaborately handmade of resin and is subject to the strict quality controls. Each model is strictly limited to 333 pcs. worldwide and is documented on the attached booklet, which should show you a short insight into the history of the vehicle.

In our book „**autocult** – Edition 2015“, which appears by the end of this year, we will supply you with all detailed stories and illustrated backgrounds of all models of the year.

We invite you to take an exciting trip across the automobile-history and have a look at our streamliners, prototypes or small vehicles, which will only be a part of our product range. Immerse yourself in developments, designs and brands, which are nearly unknown.
